Re: Illini Feeders, Inc.
No Permit Required
Termination of NPDES Permit No. IL0063436

Gentlemen:

The Illinois Environmental Protection Agency has reviewed the facility and based on field investigations of the facility conducted on July 23, and August 21, 2013, has determined that: Illini Feeders no longer owns the facility, Illini Feeders no longer operates the facility, no livestock were present at the site, and no discharges were observed. Based on review of the facility and this information, a CAFO NPDES permit is not required.

The final decision of the Agency is to terminate NPDES Permit IL0063436 effective immediately.

Please be advised that should you wish to discharge to surface waters in the future, you must submit a complete application to this Agency a minimum of 180 days in advance of any discharge.

The issuance of this termination does not grant immunity from an enforcement action found necessary by this Agency to meet its responsibilities in prevention, abatement, and control of water pollution.

Should you have questions regarding the above, please contact Yacine Anane at 217/782-0610.

Sincerely,

A handwritten signature in black ink that reads "Alan Keller".

Alan Keller, P.E.
Manager, Permit Section
Division of Water Pollution Control
